

## MOTORCROSS SHOE USE GUIDE - Acerbis

### DO NOT OVERLOOK

Read these instructions carefully before using the shoes for the first time. If you follow the following instructions, your shoes will be functional and safe. Keep the instructions on a safe place. It contains instructions that are important for your safety.

1) When making your selection, carefully consider the purpose for which the footwear will be used.

Use the footwear

in a manner and environment appropriate to its purpose.

2) Carefully select the correct size and the best fit.

Improperly chosen footwear type, size, width or shape cannot be grounds for a later claim.

3) Try the footwear on carefully when purchasing.

4) Leather and textile shoes with ready-made stitching are not waterproof. Resistance to waterproofing can be increased by using suitable waterproofing products on the footwear.

5) Take into account that by wearing the footwear, the lifetime of the footwear decreases accordingly. Warranty period

for footwear should not be confused with the life of the footwear. Due to the different intensity of use

of footwear by individual consumers, the life of the footwear may be exhausted before the expiry of the warranty period.

6) Footwear must be protected from chemical attack and wetting.

7) Do not tighten the screws on the joints!

### MAINTENANCE

- After use, it is important to clean the shoes well so that they are properly prepared for

If the shoes are wet and muddy, first clean the mud with a wet

sponge. then fill the insides of the shoes with paper to help absorb moisture and

keep the shoes in shape, dry them at room temperature in a well-ventilated place.

the shoes are dry after use, just lightly brush them with a soft brush, stone,

nails etc. should be removed from the soles, shoes fitted with Micro-Lock

system should be thoroughly cleaned of dirt, sand and mud after each use,

clean the screwed on protectors carefully and then use silicone on the screws, never wash

shoes in an automatic washing machine or with a stream of water, do not use aggressive cleaning agents

or harsh brushes, never dry shoes over a fire, on a radiator or other

heating element.
