MOTOBRAND 2.0 BELT – KIDNEY BELT 0017763

1. Intended use

This product is intended for use when riding a motorcycle or bicycle. The kidney belt provides support and helps stabilize the lumbar area during sporting activities.

This product does not replace other protective equipment intended for the relevant sport.

2. Limitations of use

Changes in environmental conditions, especially temperature and humidity, may affect the properties of the product. Any modifications, changes to the original design or improper use may reduce its functionality.

Use the product only for its intended purpose and in accordance with these instructions. Do not modify the product.

3. Inspection before use

Before each use, check that the product is complete, undamaged and in good technical condition. Pay particular attention to the following parts:

- the condition of the textile parts and seams
- the elastic sections
- the rear reinforcement
- the functionality of the hook-and-loop fastening

Do not use the product if you notice material damage, torn seams or a fastening that does not work properly.

The product must be in good condition and correctly fitted before use. If it is damaged or you have any doubts about its functionality, stop using it.

4. Selecting the correct size

Choose a size that corresponds to the user's waist measurement. The belt must fit snugly and stay in place without restricting breathing or freedom of movement.

5. Fitting and adjusting the belt

Before fitting the belt, check that the product is complete and in good condition.

Position the kidney belt around the waist so that it fits correctly over the lumbar area. Fasten the hook-and-loop closure so that the belt stays securely in place without restricting breathing or freedom of movement. Before riding, check that the belt is correctly positioned and securely fastened.

6. Care, maintenance and storage

After use, allow the belt to dry in a well-ventilated place at room temperature. Do not tumble-dry it or dry it near radiators or other heat sources.

Store the product in a dry, well-ventilated place. Protect it from direct sunlight, prolonged exposure to extreme temperatures, excessive loads and deformation.

For disinfection, use a disinfectant spray intended for sports and motorcycle equipment, provided it is suitable for the material.

Inspect the product regularly. If it is damaged or deformed, stop using it.

7. Disposal

At the end of its service life, dispose of the product in accordance with local waste-disposal regulations.

Keep the packaging out of the reach of children to avoid the risk of suffocation.
