

Blister

Assembly:

Thread the protective ring onto the handle all the way to the end of the handle. You do not need to glue the handle to the end of the grip.

Maintenance:

Replace the blister in a timely manner if there is noticeable wear.

Riding a motorcycle can be dangerous and using the handles and their components will not prevent injury. The manufacturer is not responsible for injuries that may occur.

Environmentally dispose of the product at the end of its useful life.

Made in the EU
