INSTRUCTIONS FOR USE

KNEE GUARD – KID – PROFILE – 0017758

1. Intended use

This product is protective equipment intended to protect the rider while riding a motorcycle. It is designed to help reduce the severity of impact injuries without restricting the rider’s ability to control the motorcycle.

The guard is personal protective equipment (PPE) that provides limited protection against mechanical impacts in the event of a fall.

THIS GUARD HELPS REDUCE THE SEVERITY OF IMPACT INJURIES.

NO GUARD CAN PROVIDE ABSOLUTE PROTECTION AGAINST ALL POSSIBLE IMPACTS!

NO GUARD CAN PROTECT AGAINST ALL INJURIES CAUSED BY BODY TWISTING OR SUDDEN MOVEMENTS.

Always use the guard together with other appropriate protective equipment, especially a motorcycle helmet, chest/back protector, gloves and boots.

2. Materials and manufacture

The synthetic and natural materials used, as well as the manufacturing processes, were selected with regard to the requirements of European technical standards concerning product safety, ergonomics, comfort, durability and health safety.

3. Limitations of use

The guard is intended exclusively for motorcycle sports activities and must not be used for purposes other than those for which it was designed.

Changes in environmental conditions, especially temperature and humidity, may affect the protective properties of the guard. Any modifications to the product, changes to its original design or improper use may reduce its protective function.

Use the guard only for its intended purpose and in accordance with these instructions. Do not modify the product in any way.

4. Inspection before use

Before each use, check that the guard is complete, undamaged and in good technical condition. Pay particular attention to:

- the condition and attachment of the protective elements,
- seams and textile parts,
- fastening straps,
- sliding buckles,
- proper functioning of the fasteners.

If you find cracks, torn seams, damaged parts or fasteners that do not hold securely, do not use the guard.

The guard provides its declared level of protection only when undamaged, retaining its original properties and correctly fitted. If it is damaged or you have doubts about its functionality, stop using it and replace it with a new one.

5. Laboratory testing and level of protection

According to the manufacturer, the guard has been laboratory-tested in accordance with the requirements of the following standard:

- EN 1621-1:2012

The level of protection is determined by the guard’s ability to reduce the force transmitted by an impact.

6. Selecting the correct size

Choose a size appropriate for the user’s body. The guard must fit properly, without constricting or restricting movement while riding.

7. Fitting and adjustment

Before fitting, check that the product is complete and in good condition.

1. The guard is designed for a specific left and right leg. Position it over the knee so that the straps do not constrict or restrict movement and the guard remains securely in place.
2. Suitable supporting clothing, such as long socks or sleeves worn under knee braces, can help keep the guard stable; motocross boots also help maintain its position.
3. Warning: this guard has no hinge, so it rests directly against the trousers and boot.

The guard must always be correctly fitted and secured to provide its declared protection.

8. Care, maintenance and storage

After use, allow the guard to dry in a well-ventilated place at room temperature. Do not tumble-dry it or place it near radiators or other heat sources.

If dirty, remove dirt with a dry cloth. Do not wash the guard under running water, use chemicals for cleaning or dye the product.

Store the guard in a dry, well-ventilated place. Protect it from direct sunlight, prolonged exposure to excessively high or low temperatures, excessive loads and deformation. Disinfect it using a spray intended for sports and motorcycle

equipment.

Inspect the product regularly. If it is damaged, deformed or you have doubts about its protective properties, stop using it and replace it with a new one.

9. Disposal

At the end of its service life, dispose of the product in accordance with local waste-disposal regulations. Keep the packaging out of reach of children to prevent the risk of suffocation.

10. Declaration of conformity

The EU Declaration of Conformity in Czech is available at:
