KNEE GUARD – PROFILE – 0017757

English translation of the Czech instructions

1. Intended use

This product is protective equipment designed to protect the rider while riding a motorcycle. It is designed to help reduce the severity of impact injuries without restricting the rider's ability to control the motorcycle.

The protector is personal protective equipment (PPE) that provides limited protection against mechanical impacts in the event of a fall.

THIS PROTECTOR HELPS REDUCE THE SEVERITY OF IMPACT INJURIES.

NO PROTECTOR CAN PROVIDE ABSOLUTE PROTECTION AGAINST ALL POSSIBLE IMPACTS!

NO PROTECTOR CAN GUARANTEE PROTECTION AGAINST ALL INJURIES CAUSED BY TWISTING THE BODY OR SUDDEN MOVEMENTS.

Always use the protector together with other appropriate protective equipment, especially a motorcycle helmet, chest/back protector, gloves and boots.

2. Materials and manufacture

The synthetic and natural materials used, as well as the manufacturing processes, have been selected with regard to the requirements of European technical standards concerning product safety, ergonomics, comfort, durability and health safety.

3. Limitations of use

The protector is intended exclusively for use during motorcycle sports activities and must not be used for purposes other than those for which it was designed.

Changes in environmental conditions, particularly temperature and humidity, may affect the protective properties of the protector. Any modifications to the product, changes to its original design or improper use may reduce its protective function.

Use the protector only for its intended purpose and in accordance with these instructions. Do not modify the product.

4. Inspection before use

Before each use, check that the protector is complete, undamaged and in good technical condition. Pay particular attention to:

- the condition of the protective elements and their attachments
- the seams and textile parts
- the fastening straps
- the sliding buckles
- the functionality of the fasteners

Do not use the protector if you find cracks, torn seams, damaged parts or fasteners that do not function properly or stay closed.

The protector provides the declared level of protection only if it is undamaged, retains its original properties and is correctly fitted. If it is damaged or you have any doubts about its functionality, stop using it and replace it with a new one.

5. Laboratory testing and protection level

According to the manufacturer's information, the protector has been laboratory-tested in accordance with the requirements of the following standard:

- EN 1621-1:2012

The protection level is determined by the protector's ability to limit the force transmitted by an impact.

6. Selecting the correct size

Choose a size suitable for the user's body. The protector must fit correctly and must not constrict or restrict movement while riding.

7. Fitting and adjustment

Before fitting, check that the product is complete and in good condition.

- This protector is designed for a specific leg: right and left are different. Position it over the knee and fasten the straps so that they do not constrict or restrict movement, while keeping the protector correctly in place.
- Additional garments, such as long socks or sleeves worn under knee braces, can help keep the protector in position. Motocross boots also help provide stability.
- Please note: this protector has no hinge, so it relies on the trousers and boot for support.

The protector must always be correctly positioned and secured to provide the declared level of protection.

8. Care, maintenance and storage

After use, allow the protector to dry in a well-ventilated place at room temperature. Do not tumble-dry it or dry it near radiators or other heat sources.

If dirty, remove dirt with a dry cloth. Do not wash the protector under running water, use chemicals to clean it or dye the product.

Store the protector in a dry, well-ventilated place. Protect it from direct sunlight, prolonged exposure to very high or low temperatures, excessive loads and deformation. Disinfect it using a spray intended for sports and motorcycle equipment.

Inspect the product regularly. If it is damaged or deformed, or if you have doubts about whether its protective properties have been retained, stop using it and replace it with a new one.

9. Disposal

At the end of its service life, dispose of the product in accordance with local waste-disposal regulations.

Keep the packaging out of the reach of children to avoid the risk of suffocation.

10. Declaration of conformity

The EU Declaration of Conformity in Czech is available at:
https://www.mefo.cz/acerbis-chranice-kolen-profile-20-3

The original Declaration of Conformity in English is also available on the manufacturer's website:
https://marketing.acerbis.it/motorsport/35-protection/10154-lower-body-protections/0017757
